Get an A in BYOD

Not sure which device is right for your child? We've developed this handy guide to show you the recommended minimum specs to help you choose the right device.

the basics

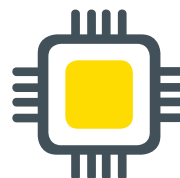

Screen

must be comfortable for all day use

Hard drive

Windows minimum 64GB
iOS minimum 32GB
Chrome minimum 16GB

RAM

Windows or iOS **at least** 4GB
Chrome 4GB is suitable

Battery life

ideally 8 hours to last through
the whole day at school

look for small and light devices to
make it easy for your child to carry

Operating system Windows 10, iOS,
macOS High Sierra or Chrome

check with your school to confirm their
specified operating system

extra investment

Protective case

reduce the risk of damage, and
help extend the life of your device.

Accidental damage protection

for peace of mind add extra cover
against accidental damage and
power surges.

Mil spec

these devices are purpose built, with
a rugged chassis, water resistant
keyboard and stronger hinges.

External keyboard

Use an external keyboard with a tablet
for increased comfort and productivity

Touch screens

Enable multiple modes of input
including making drawing and hand
writing with a stylus possible.

Stylus

Use touch screens for handwriting,
studies show writing with a stylus
helps improve memory retention.

Remember - you should check with your schools so see if they have specified an operating system or specific device requirements.
